## A DRY CLEANER THAT CARES?

Koalaty Cleaners Launches out of Obligation

Three years ago Lennie Segal sold a successful dry cleaning business in Southlake. After Mr. Segal consistently got prodding from local residence and ex-customers, he faced the decision of going back into the dry cleaning world.

Armed with extensive knowledge and experience in business ownership and dry cleaning, Mr. Segal launched Koalaty Cleaners.

The goal of Koalaty Cleaners is to offer state-of-the art, environmentally friendly dry-cleaning and garment care services, including pick-up and delivery, shirt laundry, fluff-n-fold (bulk laundry), alteration services and wedding gown preservation.

At Koalaty Cleaners, they believe that presentation matters. They believe that details should not be overlooked. And they believe their customers deserve to look their best... always. Since opening the doors in May 2007, they have prided themselves on delivering the highest quality garment care and stellar customer service. They are not only expert cleaners, they also offer all the special touches their fine clients deserve, from convenient pickup and delivery service to their environmentally friendly cleaning solvents and state of the art point of sale system. Koalaty Cleaners cares for your wear...

Now, a year later, Koalaty Cleaners operates their finely tuned plant in Southlake with a retail location in Southlake and another retail location in Coppell. Another major portion of Koalaty Cleaners business is through the pick up and delivery service. With two energy efficient vans serving northeast Tarrant county including Southlake, Westlake, Colleyville, Coppell and the surrounding areas the convenience and caring attitude of Koalaty Cleaners and Mr. Segal continue to attract many.
